

**ANTHONY WAYNE BUILDING**  
**Supplement to Building Access and Security Information**  
**Lobby Trespassers**

**Issued January 2018 (Updated Feb. 2021)**

Residential Owners, Commercial Owners, and Tenants:

The lobby is not a sleeping space, nor a shelter from inclement weather. If an owner or tenant observes a trespasser in the lobby, he or she may call the police non-emergency telephone number (427-1222) and the police will send someone over.

Please note the following:

- Police have the front door codes for emergencies, so should be able to enter even if the second set of doors is locked because it is after hours.
- We do not suggest you approach or attempt to evict trespassers yourself, especially if they are belligerent. Please use your own best and reasonable judgment as to safety if you decide to do so.
- When deciding if someone is a trespasser, please exercise the utmost discretion, especially considering the hour. Someone sitting in the lobby may be waiting for a table at The Hoppy Gnome or be waiting for a family member at Redi-med.
