Section 5.5. Special Assessments for Capital Improvements. In addition to the annual assessments authorized above, the Association may levy, in any assessment year, a special assessment applicable to that year only for the purpose of defraying, in whole or in part, the cost of any construction, reconstruction, repair or replacement of a capital improvement upon the Common Areas, including fixtures and personal property related thereto, provided however, that any such assessment shall have the assent of two-thirds (2/3) of the votes of each class of members who are voting in person or by proxy at a meeting duly called for this purpose.

The Association shall, upon demand, and for a reasonable charge, furnish a certificate signed by an officer of the Association setting forth whether the assessments on a specified Lot have been paid. A properly executed certificate of the Association as to the status of assessments on a lot is binding upon the Association as of the date of its issuance.

Section 5.9. Effect of Nonpayment of Assessments: Remedies of the Association. Any assessment not paid within thirty (30) days after the due date shall bear interest from the due date at the prevailing prime lending rate plus one percent per annum. The Association may bring an action at law against the owner personally obligated to pay the same, or foreclose the lien against the property. No owner may waive or otherwise escape liability for the assessments provided for herein by non-use of the Common Areas or abandonment of his or her Lot.

Section 5.10. Subordination of the Lien to Mortgages. The lien of the assessments provided for herein shall be subordinate to the lien of any first mortgage. Sale or transfer of any Lot shall not affect the assessment lien. However, the "sale or transfer" of any Lot pursuant to mortgage foreclosure or any proceeding in lieu thereof, shall extinguish the lien of such assessments as to payments which became due prior to such sale or transfer. No sale or transfer shall relieve such Lot from liability for any assessments thereafter becoming due or from the lien thereof.

The same sight line limitations shall apply on any lot within 10 feet from the intersection of a street property line with the edge of a driveway. No tree shall be permitted to remain within such distances of such intersections, unless the foliage line is maintained at sufficient height to prevent obstruction of such sight lines.

Section 6.15. Sidewalks. Plans and specifications for this Subdivision on file with the Allen County Plan Commission require the installation of concrete sidewalks within the street rights-of-way in front of all lots and all right-of-ways. Construction of said sidewalks shall be the obligation of the owner of any such lot, exclusive of the Declarant, and shall be completed in accordance with said plans and specifications, and prior to the issuance of a Certificate of Occupancy for any such lot, and the cost of said installation shall be a lien against any such lot enforceable by the Allen County Plan Commission or its successor agency. Should such Certificates of Occupancy be issued to Declarant, said individual or corporation shall be considered an owner for the purposes of the enforcement of this covenant.

All structures, shrubbery, trees, and other installations located within said easements shall be subject to the paramount right of each such utility to use said easements as provided herein and the removal of any obstruction by any utility shall in no way obligate the utility in damages or to restore the obstruction.

Section 7.2. Utility Easements in Streets. Utility easements in all platted streets are reserved for use, subject to the provisions of Section 7.4 below, by municipal, public and quasi-public utilities and by Declarant, and its successors and assigns, for the installation, construction, maintenance, operation, servicing, repair, removal and replacement of any utility, subject to reasonable regulation by any governmental body having jurisdiction of the streets and subject to the obligation of any such utility which installs a line in any street to repair and return the pavement of such street to at least as good as condition as existed prior to such work.

Section 7.3. Utility Service Entrances. All utility service entrances running from any utility plant within a platted easement or a street to any structure on a lot shall be located underground, except for such housings, pedestals, or other facilities as may be appropriate or necessary for connection, servicing and maintenance of such utility service entrance. Such housings, pedestals and other facilities shall be constructed and maintained at as low a height and in as inconspicuous a manner as is practicable. Each owner shall, at the time of the installation of any such service entrance, furnish to the utility, for its records, a drawing or other description accurately showing the location underground for the service entrance from the easement or street to the owner's structure. Each utility having a plant in any easement or street shall have control over the installation of all connections to its plant for service entrances serving lots. Each such installation shall be left open for inspection and approval by the utility.

Section 7.4. Prohibition of Overhead Utility Facilities. All utility wires, cables, conduits, pipes and other facilities within the Subdivision shall be located underground within the utility easements provided hereby, except that:

(a) Poles and overhead facilities may be used to the extent reasonably necessary at those places where distribution facilities enter and leave the Subdivision, and;

(b) Housing, pedestals and other facilities may be above the surface of the ground to the extent permitted by Section 7.3 above and to the extent otherwise necessary for installation and operation of the utility service, but shall be constructed and maintained at the lowest height and in as inconspicuous a manner as is practicable.

Section 7.5. Street Easements. In addition to the utility easements herein designated, easements in the streets, as shown on this plat, are hereby reserved and granted to all public utility companies, the proprietors of the land herein platted and their respective successors and assigns, to install, lay, construct, renew, operate, repair, replace, maintain and remove all and every type of gas main, water main and sewer main (sanitary and/or storm) with all necessary appliances, subject nevertheless, to all reasonable requirements of any governmental body having

jurisdiction thereof as to maintain and repair of said streets.

Section 7.6. Completion of Utilities Before Occupation. Section 8.10. Burning of Materials. The burning of papers, grass, and other materials shall not be allowed except in receptacles approved by the Association. Section 8.11. Sewage and Water Supply Systems. No individual water supply, system or individual sewage disposal system shall be installed, maintained or used on any lot in this subdivision. Sewers on lots in said Subdivision shall be connected to the sanitary sewage system according to the plans and specifications of the Declarant.

Section 8.16. Surface Drainage Easements. Surface drainage easements and common areas used for drainage purposes as shown on the plat are intended for either periodic or occasional use as conductors for the flow of surface water runoff to a suitable outlet, and the land surface shall be constructed and maintained so as to achieve this intention. Such easements shall be maintained in an unobstructed condition and the County Surveyor or a proper public authority having jurisdiction over storm drainage shall have the right to determine if any obstruction exists and to repair and maintain, or to require such repair and maintenance as shall be reasonably necessary to keep the conductors unobstructed.

Section 8.17. Yard Light. Each dwelling shall install a yard light at a location within the front twenty (20) of the lot. The yard light must be of a design and construction as approved by the Architectural Control Committee. Owner shall insure at Owner's expense that the yard light is illuminated at all times other than daylight hours.

Section 8.18. Outdoor Lighting. No outdoor light source shall be located more than 12 feet above ground level. All outdoor lighting sources in excess of 1,500 lumens shall be installed so that direct rays there from are confined to the lot upon which the source is located. Section 8.19. Grass and Weeds. The owner of any lot within the subdivision, including a vacant lot, shall be required to maintain the lot and to keep weeds and grass trimmed to a height acceptable to the Architectural Control Committee. Further, if a lot owner fails to comply, the Association shall have the right to hire the work to be performed and to charge the costs to the lot owner. The Association shall then have the right to file and hold a lien against the property if the outstanding costs remain unpaid for a period of more than 60 days, the amount of the lien to include costs, filing fees, and attorney fees.

Failure by the Association or by any Owner to enforce any covenant or restriction herein contained shall in no event be deemed a waiver of the right to do so thereafter.

Section 9.2. Severability. Invalidity of any one of these covenants or restrictions by judgment or court order shall in no way affect any other provisions which shall remain in full force and effect.

Section 9.3. Compliance with Zoning Laws. Before any lot may be used and occupied such user or occupier shall first obtain from the applicable governmental authority such improvement location and/or occupancy permits as may be required by applicable zoning or other ordinances.

Section 9.4. Duration. The covenants and restrictions herein contained shall run with the land, and be effective for a period of 25 years from the date of recording hereof and thereafter shall be automatically extended for successive periods of ten (10) years each; provided, however, that nothing contained in this Section shall limit or alter in any way whatsoever any right, statutory or otherwise, to vacate the plat or any portion thereof.

(b) The provisions of all of the other paragraphs may be changed by the written agreement of at least eighty-five percent (85%) of all of the owners in Falcon Creek Section IV at

the time the alteration or amendment of said restrictions is made, provided, however, DECLARANT and their successors or assigns shall have the exclusive right of five (5) years from the date of recording of the plat for Falcon Creek Section IV to amend any of the covenants and restrictions, subject in each case to such approval of governmental authorities as may be required by law at any time. Section 9.7. Investigation and Compliance. The Declarant and the officers of the Association shall have the right of access to all lots at all reasonable times and in a reasonable manner to investigate and determine compliance with the provisions of these covenants.

Section 9.8. No Waiver. The failure of any interested party to enforce the provisions of these covenants shall not constitute a waiver of the right to enforce them on another occasion and no delay in enforcement shall constitute a waiver of the right of enforcement so long as a violation continues.
